Freehold Title

Neighbourhood Tenure Mix

Zone: Low-medium density residential

This is a residential property — you can live here and potentially develop further.

Planning objectives for this zone:

- The purpose of the low-medium density residential zone is to provide for a variety of low to medium density dwelling types; and community uses, and small-scale services, facilities and infrastructure, to support local residents.

2 What You Can Do

Your property is zoned LMDR — Low-medium density residential

Here's what this means for what you can do with your property.

! Subdivision

Subdivision is permitted with consent. No minimum lot size control is mapped for this location — check with council.

3 Improvement Options

✘ Granny Flat

Secondary dwellings are not permitted in your zone.

i Swimming Pool

Pools are generally exempt development (no DA needed) if they meet setback and fencing requirements under the planning scheme's self-assessable code.

! Subdivision

Subdivision is permitted with consent. No minimum lot size control is mapped for this location — check with council.

4 Building Limits

Development control data is not yet available for this location. Check with your local council.

5 Income & Rental Potential

i Short-Term Rental (Airbnb)

Short-term rental in Queensland is regulated locally — some councils (e.g. Brisbane, Noosa, Gold Coast) require host registration. For body-corporate properties, body corporate by-laws under the BCCM Act 1997 may restrict short-term letting. Most STRA does not require a separate development approval; check with your local council and (if applicable) your body corporate before listing.

6 Things to Know

i Heritage Item — Queensland heritage register places (ESA Cat B)

Your property is locally heritage listed. Changes to the exterior require heritage consent. Interior works are generally unaffected.

i Regulated Vegetation

This land contains regulated vegetation under the Vegetation Management Act 1999. Clearing may require a permit or code notification through the Department of Resources.

i Flood Hazard Area

This property is in a flood planning area. Building approval requires a flood study, and floor levels may need to be raised. Insurance premiums may be higher.

i Koala Habitat Area

This land is mapped as koala habitat under the State Planning Regulatory Provisions (Koala Conservation). Clearing and development are subject to additional assessment.

i Important Agricultural Area

This land is mapped as Important Agricultural Area under the State Planning Policy. Non-agricultural development requires state-interest assessment.

7 What's Allowed on Your Land

Low-medium density residential (LMDR) has **0** land use classifications.

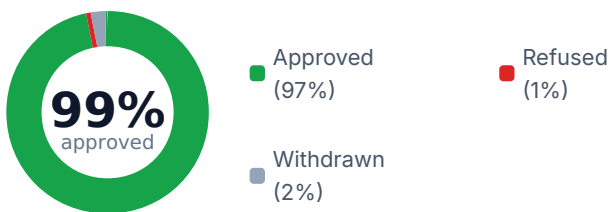

8 What's Changing

Recent and pending planning activity in the area, plus state policy overrides that may change what can be built here.

Nearby Development Activity
